THE ULTIMATE MEAL REPLACEMENT

Two of the highest performing and most dependable foods known to man come to you in Titan Native Whey and Oats. Built on a foundation of Titan's famous Native True Whey Protein and combined with nature's super carb, oats, you're nutritionally on-track to greatness.

ORGANIC NON-GMO STONE MILLED OATS

This is not just an ordinary oats. It's non-GMO, whole organic oats, stone-ground the traditional way. This natural method maintains low nano-pass temperatures without the thermo-gain impact of steel-roller milling and mechanical pulverizing. This means that the micro nutrients and glycosides incipient in the oats remain unaltered throughout the process.

The Titan Nutrition philosophy is to make sure that every person using its advanced products enjoy an unbeatable advantage in both nutritive value and taste. Guaranteeing that this happens is Titan's unique Cold Fold Technology: a dry-blending process that maintains all ingredients at a consistent low temperature. As a result, the proteins and other components remain completely undenatured, unaltered and 100% bio available. This marks a radical departure from traditional processes, making for a product of superior nutritional and flavour quality.
